

Signscape Systems Environmental Policy

Signscape Systems Ltd is committed to leading the industry in minimising the impact of its activities on the environment.

The key points of our strategy to achieve this are:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Minimise toxic emissions through the selection and use of its fleet and the source of its power requirement.
- Actively promote recycling both internally and amongst its customers and suppliers.
- Source and promote a product range to minimise the environmental impact of both production and distribution.
- Meet or exceed all the environmental legislation that relates to our Company.
- Use an accredited programme to offset the greenhouse gas emissions generated by our activities.
- Use all good environmental practices in our day to day operations.
- Use registered waste disposal companies for removal of all waste.
- Respect all clients' policies aimed at a better environment.

'We recognise that one of the key impacts of our products is the energy they consume for lighting throughout their lifetime, so we have developed a range of solar powered systems which operates on 100% solar power. We will continue to invest in improving and promoting this product.'
